EXCEPTIONS to the **STAR IDEA**

“**PREVENT**

MOSQUITO BREEDING BY PREVENTING WATER STAGNATION ”

So much has been said in chapter **prEVENT** on preventing mosquito breeding by preventing water stagnation by name B 3 .

There are places where hardly one can do of Prevention of Water Stagnation like those who live on the banks /quite nearby to **STAGNANT RIVERS** like for example the **A, B , C** of Chennai

A. Adyar

B. Buckingham

c. Cooum

Though who live near the stagnant river should also prevent mosquito breeding in all the points , they may be helpless & they have only the following two options

1. Door Control (D 3)

2. Net the Best (N3)

If you cannot stop mosquito breeding around your home, your next PreVENT solution is :
