prevention

TRAVEL is concept is a MUST everyone who goes out of their HOME. Almost Travel precautions are important to everyone except those who are bedridden.
When you go out, go prepared to remain unbitten by Mosquitoes. Carry MOS-KIT with you.
There are hundreds who have mosquito foolproof homes, but died due to mosquito bite when they went outside.

e.g. Yash Chopra

INNOVATION, NOMENCLATURE & CONCEPT
Exn Dr Nirmal Basu 7th Sense Master
Why “T” in “prevenT” ?

“T” stands for “Travel”.

MUSTQUITO is one issue that cannot be restricted to your place of stay / work, but also your travel and stay outside, as MOSQUITOES are there everywhere.

There are umpteen incidents when people who enjoyed mosquito-protected environment, succumbed to mosquito-bite either during their travel or the place where they went and stayed.
When you go out, go prepared to remain unbitten by Mosquitoes. Carry MOS-KIT* with you.

There are hundreds who had mosquito foolproof homes, but died due to mosquito bite when they went outside. e.g. Yash Chopra

MOS-KIT* a set of repellent that you carry when you go out.
Why prevenT - prevenT (TRAVEL) Go Guided & Guarded assumes all importance when we come across instances of even most affluent & educated with awareness have lost their LIVES due to lack of protection from mosquito in their place of VISIT / STAY

Dr Sumedh Pazare Doctor Mumbai BYL Hospital died of dengue

Dr Shruthi of KEM Hospital died due to DENGUE

FILM WORLD BRAHMA YASH CHOPRA died due to Dengue

Tamil Nadu leading film artiste’s only son died by BRAIN FEVER in 2015
PRECAUTIONS

DO'S & DON'TS
EXPOSURE TO MOSQUITOES IS QUITE HIGH WHILE YOU GO OUT

When you go out, go prepared to remain unbitten by Mosquitoes

Our safety concerns and “SAFETY LIST” also includes protection from MOSQUITOES

There are hundreds who have mosquito foolproof homes, but died due to mosquito bite when they went outside.

Outdoor prevent T

(TRAVEL) G3 Go Guided & Guarded
Dengue transmission spread from Southeast Asia into surrounding subtropical and tropical Asian countries, southern China and southern Taiwan, the Indian subcontinent and Sri Lanka, and down the island nations of Malaysia, the Philippines, New Guinea, north-eastern Australia, and several Pacific islands, including Tahiti, Palau, Tonga, and the Cook Islands. Hyper-endemic transmission is reported in Vietnam, Thailand, Indonesia, Pakistan, India, Malaysia, and the Philippines. Dengue continues to extend its range.
There are hundreds who have mosquito protection in their home, office and even car, but were affected when they went out due to **MOSQUITO BITE**

It is better that they know something about the place of their visit whether it is **MOSQUITO-PROOF** or **MOSQUITO-PRONE AREA**

Take guidance and guard themselves by taking repellents with them (spray or cream)
MOS-KIT Bag. Stuff inside the repellents you use & take it with you like. For a short duration these are okay.

MOS-KIT MOS-KIT MOS-KIT MOS-KIT MOS-KIT MOS-KIT
1. One can apply mosquito repellent cream and go. It is always better to carry a tube or bottle of mosquito repellent cream with you.

2. There are sprays which will keep the Mosquito away. It is necessary when you attend outdoor event & meetings.

3. Cover Your Body. Wear light-coloured, long-sleeved shirts and pants with fabric thick enough to prevent mosquitoes from biting. The occurrence of mosquito bites can be minimised by wearing long-sleeved shirts, and long pants to reduce exposed skin.

4. Wear SHOES & LONG SOCKS.
What is meant by TRAVEL in the context of Mosquito Menace?

TRAVEL has two components:

1. ACTUAL TRAVEL, from WALKING to using any mode of transport, the time you spend in commuting.

2. STAY, from one minute to any length of time in another place. Stay includes the time you spend in a park, elevator, playground, cinema, etc.
