

How to take
and give?
From whom
can we learn?
Of course
from our
brother and
sister TREE

TREES , the GREAT TEACHER

Trees have no six senses like us .

Even when do nothing , we are breathing and creating carbon footprints.

Trees take in oxygen during nights, but gives back ten times of oxygen during day time.

Humans are one-way traffic who know only to take.

But trees are like two way traffic.

The trees take less from Mother Earth and give back more to Mother Earth.

Can we all realise it now & become like trees.
Can all of us create three times Oxygen Footprints for every Carbon Foot Print that we create?

Tree takes oxygen during nights and releases carbon dioxide

But at day times , the tree takes carbon dioxide and releases oxygen . But the incredible information is that it gives 10 times more oxygen during day than what it takes in the night times

It takes nutrients from the earth

But TREE enriches the soil by dropping its Leaves, Flower & Fruits

It takes water from Mother Earth

But Trees attract cloud & rain

Tree gets the support from the soil

But only the trees protect the soil from erosion & land slides

Trees occupy space

But trees give shade beneath
the space occupied

Trees have no six senses , but provide treat to mans' six senses

VISUAL SENSE
Trees and flowers

OLFACTORY/smell sense
Fragrance

GUSTATORY / taste sense
taste of its produces

**All these senses
awaken the 6th SENSE**

**KINAESTHETIC / touch
sense enthrallment
when one see it**

**AUDITORY – hearing sense
along with air soothing noise**

Tree has no senses of humans , but it treats mother earth with respect & reverence (Humans & Trees have no comparison

It takes oxygen for 8 hours	But gives returns oxygen for 16 hours
It takes nutrients from earth	But enriches the soil by dropping its leaves Flowers & fruits
It takes water from Mother earth	But Trees only get us rain
It gets the support from the soil	But it is the trees which protects the soil from erosion & land slides
It occupies space	But it gives shade beneath its occupied area
It does not have six senses	But provides treat to humans all six senses by its beauty - leaves & flowers (Visual sense) , fragrance (olfactory/ smell sense) , taste of its produces (gustatory / taste sense) , along with air soothing noise (Auditory - hearing sense) , enthrallment when one see it (kinaesthetic / touch sense) & seeing all these work for the analytical & creative 6th Sense
