People of all castes & religions should join & work together to get quality water.
WATER problem is there EVERYWHERE
People should unite & work together to get quality water
Where is WATER?

A kid instead of going to school spending time to fetch water. She has lost both education & enjoying the beauty of being a CHILD.

Photo by Shaju John
A corrupt politician was boasting “Even food in my house is cooked in mineral water”

But a kid, instead of going to school, spending time to fetch water. Why this disparity?

Water shortage teaches TEAM Spirit among children

Photo by Shaju John
Please don’t fight in the name of caste & religion. Use your mental stamina & physical strength & give water to this KID.
Every day, 14 million people of greater Delhi generate over 650 million gallons of waste water that drains into the Yamuna.

Unsafe drinking water is the number one killer of children under the age of five.

Every 5 seconds, a child dies of water borne illnesses.

Aquifer
Chemical Pollution
PATHOGEN POLLUTION

Sources of Pathogens

Untreated Municipal Sewage
Human sewage is the most common source of pathogen pollution, particularly in South America, Asia, and Africa.

Sewage From Ships
Waste from recreational and commercial vessels, particularly cruise ships, also introduces pathogens to ocean waters.

Livestock and Animal Waste
Discharge of waste from farm, domestic or wild animals can introduce bacteria, viruses and parasites into local water systems and coastal waters.
