

- **The ExNoRa Seva Centre will be an “Eco-friendly” MODEL and will be recognised as an “Eco-tourist” Spot (Suttru Suzhl Suttrulla Stall) by ExNoRa International”. The tourists, elected representatives government officials , both from India & abroad will flock there to see , understand & Learn**
- **The building will therefore be naturally an “Eco-tourist” Spot . The Office ExNoRa concept will be there in place . Energy Saving , Waste Minimisation , Waste To Wealth Practises, Carbon Neutral Office, Greeneries & Sky Farm all will be in place. The “All Easy Bio-gas plant” is a must. The whole office waste will produce gas for cooking and the gas will also produce power for meeting the office electricity requirements**

ExNoRa Innovators Club & ExNoRa Seva Centre will be 100% eco-friendly premises and the following eco-practices will be in place. It will be an Eco-tourist spot & Ecobition

Here is the checklist for 100% eco-friendly model premises

Source Segregation	Source Composting	Recyclables will be sent to recycling Industries	Handmade Paper recycling will be done
Waste Water will be dealt with & will be used for gardening & Horticulture	Maximum Natural light will be used during day time	Solar Energy will be used	Efforts will be made to install wind mill
Light fittings will be LED	Zero Waste Centre will be installed	Bio-methanation will be carried out	Energy Saving will be carried out as per ExNoRa recommendation
Waste minimisation will be fully practised	Rain Water Harvesting will be implemented		ExNoRa Magic Log Book will be used to reduce power consumption
