Temple **ExNoRa** will also promote
Positive & Inclusive Hinduism

by its **SC**⁶

What is **SC**⁶ ?

S in **SC** stands for **SANS** & **SANS** means **WITHOUT** . **6** stands for **6** basic qualities.

SC¹ stands for

Sans Control by any political party. The Hindu Temple devotees belong to different parties and many remain apolitical too.

Hence the religion should be free from party politics as well as political party / parties influence.

SC² stands for

**SANS CASTE FANATISM . SC²
will not interfere with the Hindu
caste system but will do its best
to bring caste-harmony within
the Hindu religion and the
devotees. Without peace, there
can never be ONENESS with the
ALMIGHTY.**

SC³ stands for

- **SANS CONFRONTATION** with the **FOLLOWERS OF OTHER FAITHS**. “I respect my **FAITH**, and I equally respect, your respect for your faith” is the basic tenet of **SC³**.
- People should understand that people of one caste / faith / race / language are not enemies of people of another caste / faith / race / language. Humanity is now facing hundreds of common enemies, Globally, Climate Change and the consequent natural disasters like floods, cyclones, earthquakes and tsunamis and locally Air pollution Corona. Dengue Malaria, Zika are common enemies.
- Humanity should rise as **ONE** and take on the common enemies and save themselves. Otherwise, the entire human race will disappear.
- Everyone should know that we are interconnected and are mutually dependent. Nature at the height of its fury does not discriminate against humans by caste, color, race, faith, or language.

SC⁴ stands for

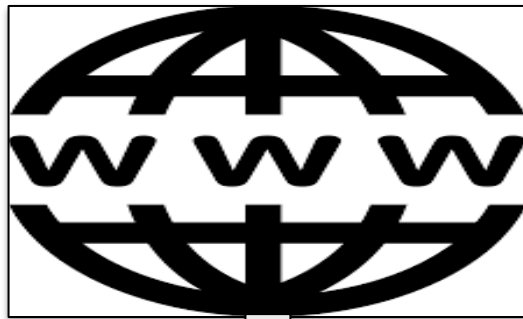

- **SANS CONCOCTIONS & SUPERSTITIONS.**
One of the reasons for the Hindu religion becoming weak is the various insertions made in the religious texts with ulterior motives. These concoctions have driven out several lakhs from the religion and made them embrace other faiths. Badly affected by the concoctions were women of all castes as well as those who are considered to be as lower caste.

SC⁵ stands for

- **SANS CORRUPTION & EMBEZZLEMENT**
- **& SUPERSTITIONS.** One of the reasons for the Hindu religion becoming weak is the various insertions made in the religious texts with ulterior motives. These concoctions have driven out several lakhs from the religion and made them embrace other faiths. Badly affected by the concoctions were women of all castes as well as those who are considered to be as lower caste.

**Kindly note that Temple ExNoRa
will not interfere with the Hindu
rituals and traditions followed in
